Gross national income 2016, Atlas method

<i>Ranking</i>	<i>Economy</i>	(millions of US dollars)
----------------	----------------	-----------------------------

a. Based on data from official statistics of Ukraine and Russian Federation; by relying on these data, the World Bank does not intend to make any judgment on the legal or other status of the territories concerned or to prejudice the final determination of the parties' claims. b . Based on data officially reported by the National Statistics and Censuses Institute of Argentina. The International Monetary Fund (IMF) has called on Argentina to adopt measures to address the quality of official GDP and consumer price index data, and issued an updated statement on Argentina's progress on August 31, 2016: <http://www.imf.org/en/News/Articles/2016/08/31/PR16389-Statement-by-the-IMF-Executive-Board-on-Argentina>. The World Bank systematically assesses the appropriateness of official exchange rates as conversion factors. For Argentina, an alternative conversion factor has been calculated using a weighted average method for the period from 2012 to 2015. c. 2016 data not available; ranking is approximate. d. Includes Former Spanish Sahara. e. Covers mainland Tanzania only. f. Data are for the area controlled by the government of Cyprus. g. Excludes Abkhazia and South Ossetia. h. Excludes Transnistria.
