Human Capital Index 2020

This brief provides an update to the Human Capital Index (HCI). First launched in 2018, the HCI measures the amount of human capital that a child born today can expect to attain by age 18. It conveys the productivity of the next generation of workers compared to a benchmark of complete education and full health. Worldwide a child born in 2020 can expect, on average, to be 56 percent as productive as she could be when she grows up. All data represent the status of countries pre-COVID-19.

THE HUMAN CAPITAL INDEX

Human Capital Index. A child born in Kosovo today will be **57 percent** as productive when she grows up as she could be if she enjoyed complete education and full health. This is lower than the average for Europe & Central Asia region but slightly higher than the average for Upper middle income countries.

- **Probability of Survival to Age 5.** 99 out of 100 children born in Kosovo survive to age 5.
- **Expected Years of School.** In Kosovo, a child who starts school at age 4 can expect to complete **13.2 years** of school by her 18th birthday.
- **Harmonized Test Scores.** Students in Kosovo score **374** on a scale where 625 represents advanced attainment and 300 represents minimum attainment.
- **Learning-adjusted Years of School.** Factoring in what children actually learn, expected years of school is only **7.9 years**.
- **Adult Survival Rate.** Across Kosovo, **91 percent** of 15-year olds will survive until age 60. This statistic is a proxy for the range of health risks that a child born today would experience as an adult under current conditions.
- **Healthy Growth (Not Stunted Rate).** Data on stunting are not available for Kosovo.

DIFFERENCES IN HCI ACROSS GENDER AND SOCIO-ECONOMIC GROUPS

In Kosovo, the HCI for girls is higher than for boys. Table 1 shows gender disaggregation for each of the HCI components.

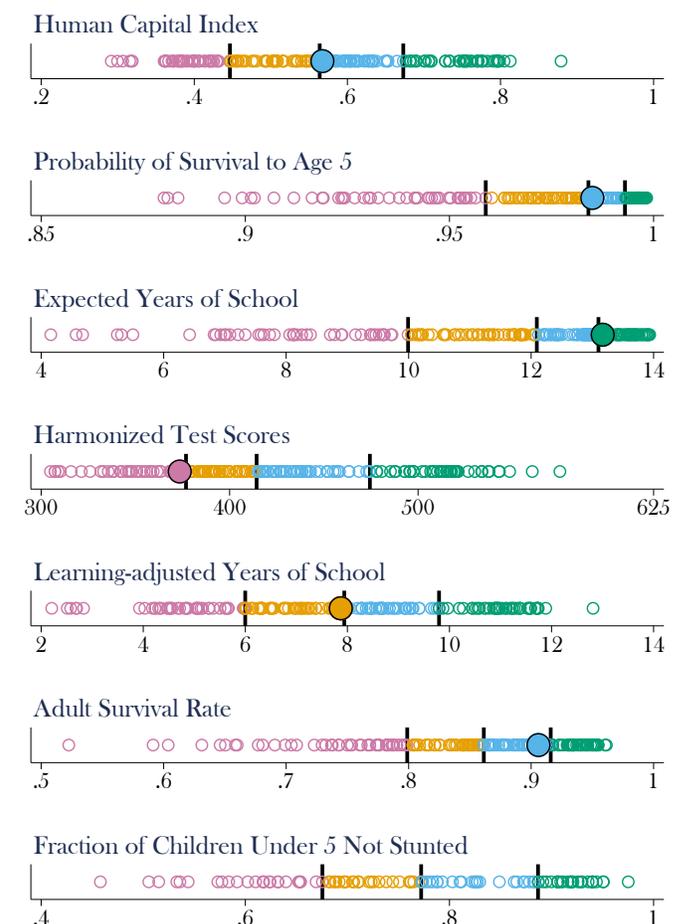

In Kosovo, there are not sufficient data to disaggregate HCI by socio-economic groups.

Table 1. HCI by Gender and Socio-economic Group

Component	Boys	Girls	Overall
HCI	0.55	0.58	0.57
Survival to Age 5	0.98	0.99	0.99
Expected Years of School	13.1	13.2	13.2
Harmonized Test Scores	369	378	374
Learning-adjusted Years of School	7.8	8.0	7.9
Adult Survival Rate	0.88	0.93	0.91
Not Stunted Rate	-	-	-
HCI Ratio (richest / poorest 20 percent)	-	-	-

Figure 1. HCI and Components

Note:

- Large circle represents Kosovo
- Small circles represent other countries
- Lines and color of circles indicate quartiles of the distribution

The outlook for the next generation has been improving in most countries in Europe & Central Asia. Efforts are being made to protect human capital gains against setbacks and accelerate progress for all. The challenges unleashed by COVID-19 require an even stronger policy response, including greater use of technology to improve service delivery and enhanced social assistance programs, to ensure that people receive quality education and health care.

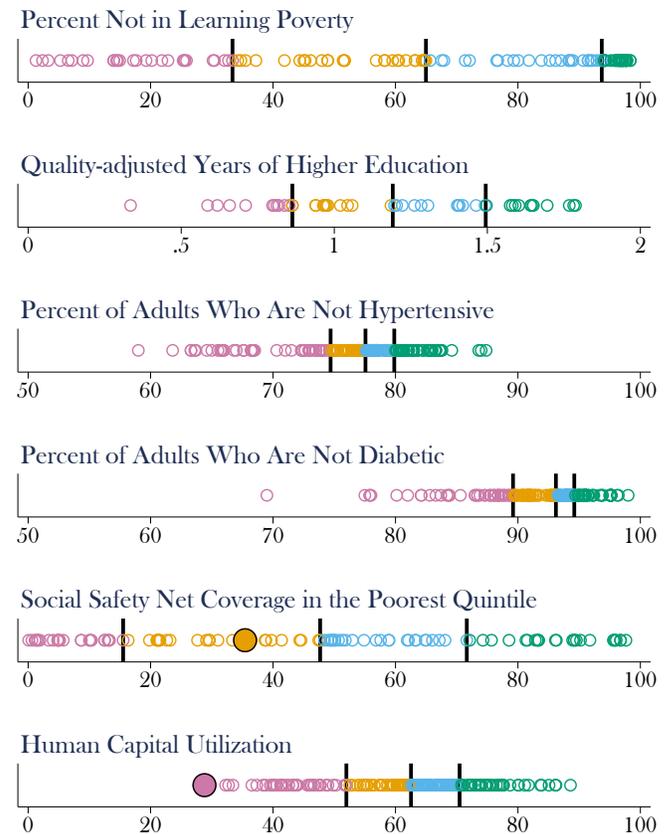

DOMESTIC RESOURCE UTILIZATION AND MOBILIZATION

- **Health Spending.** In Kosovo, data on public spending on health are not available. The average for its region is 4.9 percent and for its income group is 4.0 percent.
- **Education Spending.** In Kosovo, data on government education spending are not available. The average for its region is 4.6 percent and for its income group is 4.7 percent.
- **Social Assistance Spending.** Kosovo spends **4.6 percent (2018)** of its GDP on social assistance. This is higher than both the regional average (1.8%) and the average for its income group (1.5%).
- **Government Revenue.** General government revenue in Kosovo is **26.1 percent (2018)** of GDP. This is lower than both the regional average (38.1%) and the average for its income group (30.6%).

COMPLEMENTARY INDICATORS

- **Learning Poverty.** In Kosovo, data on learning poverty are not available. In its region, 11 percent of 10-year-olds cannot read and understand a simple text by the end of primary school. The corresponding value for its income group is 38 percent.
- **Pre-primary Gross Enrollment.** In Kosovo, data on gross enrollment ratio in pre-primary education are not available. The average for its region is 85 percent and for its income group is 63 percent.
- **Quality-adjusted Years of Higher Education.** In Kosovo, data on quality-adjusted years of higher education are not available.
- **NCD Deaths.** In Kosovo, data on the probability of dying between ages 30 and 70 from cardiovascular disease, cancer, diabetes, or chronic respiratory diseases are not available. The average for its region is 17 percent and for its income group is 20 percent.
- **Health Risk Factors.** In Kosovo, data on health risk factors are not available.
- **Hypertension.** In Kosovo, data on prevalence of hypertension are not available. The average for its region is 29 percent and for its income group is 23 percent.
- **Diabetes.** In Kosovo, data on share of the population ages 20-79 has type 1 or type 2 diabetes are not available. The average for its region is 6 percent and for its income group is 10 percent.
- **Universal Health Coverage (UHC) Index.** In Kosovo, data on UHC Index are not available. In its region, 75 is the UHC Index score, and in its income group, 69 is the UHC Index score.
- **Social Safety Net Coverage.** In Kosovo, **35 percent (2013)** of the poorest quintile is covered by social safety nets. This is lower than both the average for its region (46%) and the average for its income group (57%).
- **Human Capital Utilization.** In Kosovo, **29 percent (2015)** of the working-age population is employed. This is lower than both the average for its region (65%) and the average for its income group (57%).
